

WAYNE CHASAN

Born in the USA, Wayne relocated to Marbella in 1982 where he lives and works as a professional photographer. Highly specialized in architecture and interiors, his personal passion is capturing the “soul” of Andalucía in images; whether its people and culture in rural settings, or its landscapes and villages steeped in history.

In this time he has produced more than two thousand advertising campaigns and editorial features for clients and magazines around the world such as Elle Decor, Conde Nast, Time Magazine, Warner Bros, Canon, British Airways and El Corte Ingles.

It is Wayne’s innate ability to capture and create mood combined with his masterful use of the photographer’s palette of light, form, texture, and composition that make his images so powerful. His luminous touch enhances the beauty of a location or a moment.

He has received awards such as the Spanish Photographer’s Association “Lux Oro” for the launch of the Oleicola Hojiblanca brand, from the City of Marbella Communication Media for his accomplished career, and from the Junta de Andalucía for the Promotion of Businesses in Andalucía.

He was one of seven photographers selected to create the campaign for the 50th anniversary of Canon Europe, and his images for them were chosen by the American Society of Media Photographers for their “Best of 2007”.

His personal work has been exhibited in multiple solo and collective exhibitions in galleries and museums, both in the USA and Spain. With his inspired vision, Wayne infuses magic and emotion in to the imagery he creates.
